

CMG-SSU

Serial server and UPS module

Güralp Systems' CMG-SSU serial server and UPS is a robust and cost effective unit which provides a simple way to connect seismic instruments to your network.

Key Features:

- Stable and robust for total autonomy
- Switchable between serial and network interfaces
- Ethernet or LAN options
- TCP output compatible with Scream!

Specifications:

Internal network processor	<i>Lantronix X-port /Wi-port</i>
Communication technologies supported	<i>RS232 Ethernet (10BaseT / 100BaseT) TCP/IP Optional wireless LAN (802.11b)</i>
Operating temperature range	<i>-40 to +60 °C</i>
Power Input	<i>100 - 240VAC</i>
Battery type	<i>Battery type</i>
Battery capacity	<i>Battery capacity</i>
Weight	<i>Weight</i>
